

Mario Rubio Avila BD01_Tarea 1.1

Instalacion

Configuracion de la clave de usuario system

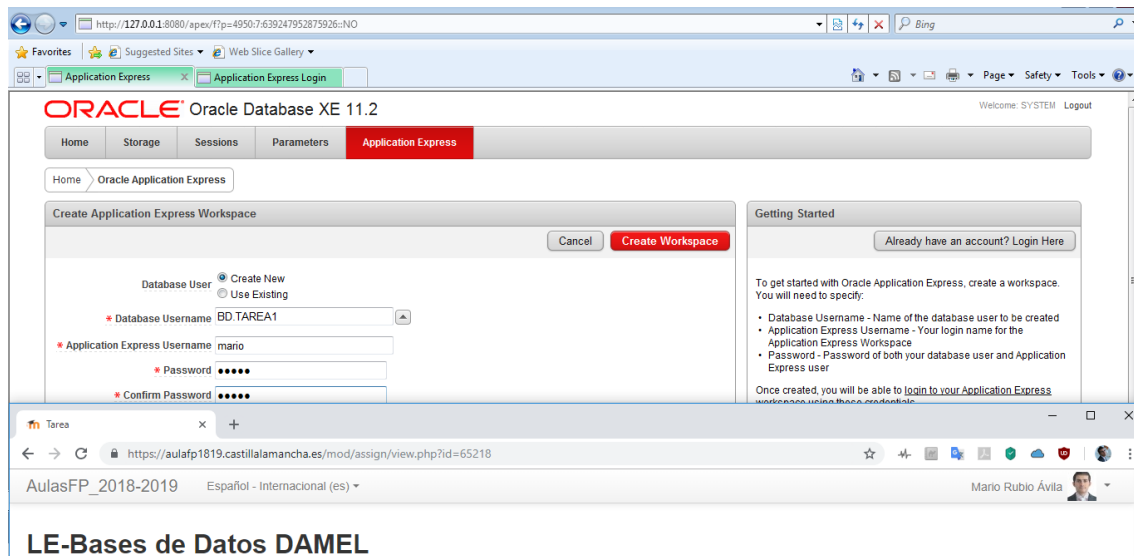

The screenshot shows the 'Specify Database Passwords' step of the Oracle Database 11g Express Edition - Install Wizard. The window title is 'Oracle Database 11g Express Edition - Install Wizard'. The Oracle logo and 'DATABASE EXPRESS EDITION' are in the top right. The main text says: 'Enter and confirm passwords for the database. This password will be used for both the SYS and the SYSTEM database accounts.' There are two input fields: 'Enter Password' and 'Confirm Password'. At the bottom, there are 'Back', 'Next', and 'Cancel' buttons. An 'InstallShield' progress bar is at the bottom left.

Datos de los detalles de configuracion

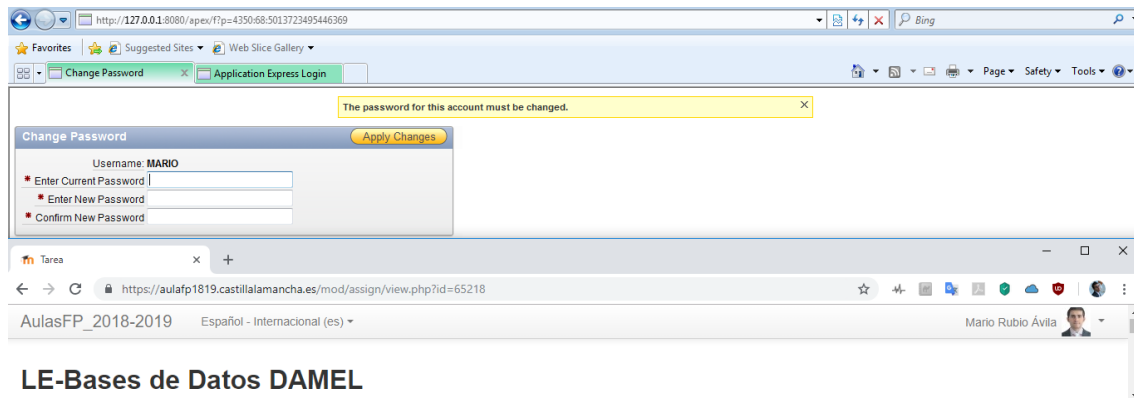

The screenshot shows the 'Summary' step of the Oracle Database 11g Express Edition - Install Wizard. The window title is 'Oracle Database 11g Express Edition - Install Wizard'. The Oracle logo and 'DATABASE EXPRESS EDITION' are in the top right. The main text says: 'Review settings before proceeding with the installation.' Below this, it says 'Current Installation Settings:' followed by a list of settings in a scrollable box: 'Destination Folder: C:\oraclexe\'', 'Oracle Home: C:\oraclexe\app\oracle\product\11.2.0\server\'', 'Oracle Base: C:\oraclexe\'', 'Port for Oracle Database Listener: 1521', 'Port for Oracle Services for Microsoft Transaction Server: 2030', and 'Port for Oracle HTTP Listener: 8080'. At the bottom, there are 'Back', 'Install', and 'Cancel' buttons. An 'InstallShield' progress bar is at the bottom left.

Tras finalizar la instalación encontré problema con la posibilidad de conectarme a través de la dirección web <http://127.0.0.1:8080>, posiblemente sea un problema con el firewall o el enrutamiento que aplica el antivirus Kaspersky a mi interface de red. Ya que los servicios están levantados y funciona mediante línea de comandos. Con el fin de continuar la practica monte el sistema sobre una máquina virtual.

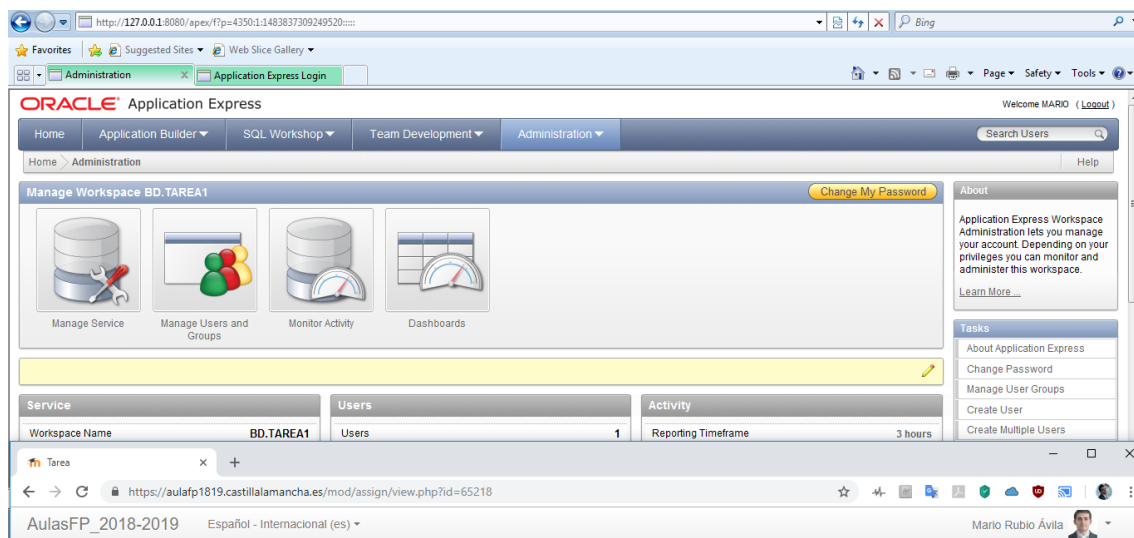

Creando BD, usuario y tabla

Cambio de clave al ser el primer inicio

Interfaz de Workspace de la Base de datos

Creacion de tabla y configuracion de columnas y tipos de datos que alberga

Select Object Type
